My eyes are pain-ted red
The can-vas of my soul,
Slowly breaking down again
Today I heard the news
The stories getting old
When will we see the end?

Of the days, we bleed for what we need
To forgive, forget, move on
Cause we've got

Припев
One life to live
One love to give
One chance to keep from fal-ling
One heart to break
One soul to take us
Not for sake us,
Only one Only one

The writting's on the wall
Those who came be-fore
Left pic-tures frozen still, in time
You say you want it all
But whose side you fighting for?
I sit and won-der why

There are nights, we sleep, while others they weep
With regret, repent, be strong Cause we've got

(Припев)

Just you and I
Under one sky

(Припев)
